To Whom It May Concern

As the Small Projects Manager of the Hopi Tribe's Office of Facilities & Risk Management Services, it was my pleasure to work with Mr. Tim Young and Mr. Kevin Young of A.S.T.A. Roofing & Construction. ASTA completed the renovation of our Administration Building roof with efficiency and professionalism.

I am pleased to recommend the services of ASTA to future patrons. The quality of their work was excellent and the project was completed within the agreed upon time and the level of customer service received was satisfactory.

Based on my experience, I feel confident in recommending ASTA. Not only were they thorough, but were willing to take the time to address our concerns, which made the project move along smoothly.

Regards,

VanDerrit Poyer
Small Projects Manager - OFRMS
