

January 26, 2012

The Phoenix MBDA Business Center has been working with ASTA Roofing & Construction, LLC very actively, and is pleased to report that this company is a client in good standing.

The Phoenix MBDA Business Center is federally funded by the Minority Business Development Agency (MBDA), U.S. Department of Commerce. MBDA and its Centers are charged with supporting the sustainable growth and expansion of minority-owned businesses throughout the country. In that capacity, ASTA Roofing & Construction, LLC has worked with the center to grow its portfolio of federal contracting opportunities. ASTA has exhibited exemplary professionalism, expertise and dedication to the trade. The business is responsive and responsible.

The center considers ASTA one of its best clients and consistently recommends it for contracting and subcontracting opportunities. The company is especially strong as it provides a diverse and comprehensive set of services such as 24/7 service for all levels of residential and commercial roofing systems. We are able to recommend this client without reservation for services that include design services in roofing of all types, Built-Up, Single-Ply, Metal, Shingles, Tile Coating, etc. They service projects that range from small tenant improvements, restaurants, Class A commercial building, to more sophisticated design build services.

We look forward to continuing a long and productive relationship with ASTA Roofing & Construction, LLC.

Sincerely,

Alika Kumar
Director
Minority Business Development Agency Business Center
